Standard Flagpole

Standard Flagpole

The ALUART Standard Flagpole is a winner with its simple, robust style and its excellent value for money. Exceedingly practical for new users, it can be put together quickly with little effort and no tools.

The ALUART Standard Flagpole is available in sizes from 5 m to 12 m. The one or two-piece flagpoles are equipped with a cleat and a plastic cap. The external halyard leads through the flagpole head and is coiled around the cleat that is fixed

to the flagpole with a chrome bracket. By tightening the halyard, the device is clamped around the flagpole and is held in place without the need for fixings. The banner is fixed to a galvanised ring. The Standard Flagpole is anchored to the ground with a ground tube (up to 8 m poles) or a ground socket with center ring. A ground socket offers the advantage that another size of flagpole can be installed at a later date without any problem.

Technical Data: Standard Flagpole

Height	Version	Diameter	Weight	Pack Length
5 m	1-piece	60 or 80 mm	5,5 or 10 kg	5,0 - 5,5 m
	2-piece	60/60 mm or 80/60 mm	6,0 or 8,5 kg	3,0 m
6 m	1-piece	60 or 80 mm	6,5 or 12 kg	6,0 - 6,5 m
	2-piece	60/60 mm or 80/60 mm	7,0 or 10 kg	3,5 m
7 m	1-piece	80 mm	13,6 kg	7,0 - 7,5 m
	2-piece	80/60 mm	11,5 kg	4,5 m
8 m	2-piece	80/60 mm or 100/80 mm	12,8 or 19,5 kg	4,5 m
9 m	2-piece	101/80 mm	22,0 kg	6,0 m
10 m	2-piece	101/80 mm	24,2 kg	6,0 m
11 m	2-piece	101/80 mm	25,9 kg	6,0 m
12 m	2-piece	101/80 mm	28,0 kg	6,5 m

Flagpoles are aluminum, available in colorless anodized (silver grey) or powder-coated white (RAL 9010) versions. More colors on request.

Maintenance:

This flagpole is absolutely maintenance free. Parts subject to wear and tear should be replaced every couple of years.

Remarks:

Should the banner rope become loose, it can be noisy in strong winds, however this can be reduced by wrapping the cord once around the flagpole. In stormy weather (Beaufort 8+ winds) the banner must be taken down for safety reasons.
